STEP.15: EYES OF DOUBT

?
Kuni-kida-san?
Why is he staring at a table?
Oh.
2
Izu-mi-san?
The corner is dirty
Somebody must've spilled something
Um...

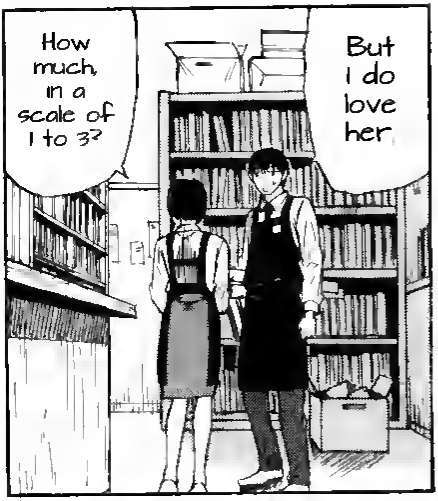
Eh.
!
I'll wipe it for you
じ
No, nothing. Please continue
?
Is something the matter?
No, I'm fine. Really.
Are you okay?
You're beet red. Sick?

Er?
Yes, we are.
How's it going with your girl-friend?
You're lovey-dovey as usual, right?

Really?
We're doing well.

Kuni-kida-san,
how much do you love her?

じいっ

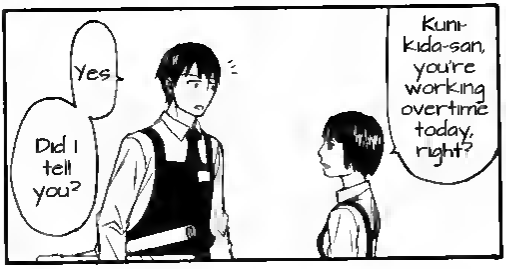


How much, in a scale of 1 to 3?
But I do love her.

Even if you are going out it doesn't mean both parties have the same amount of affection.
To my eyes, you don't look like you love her so much.

At least that's what I think, anyway.

It can
I don't think love can be measured like that.



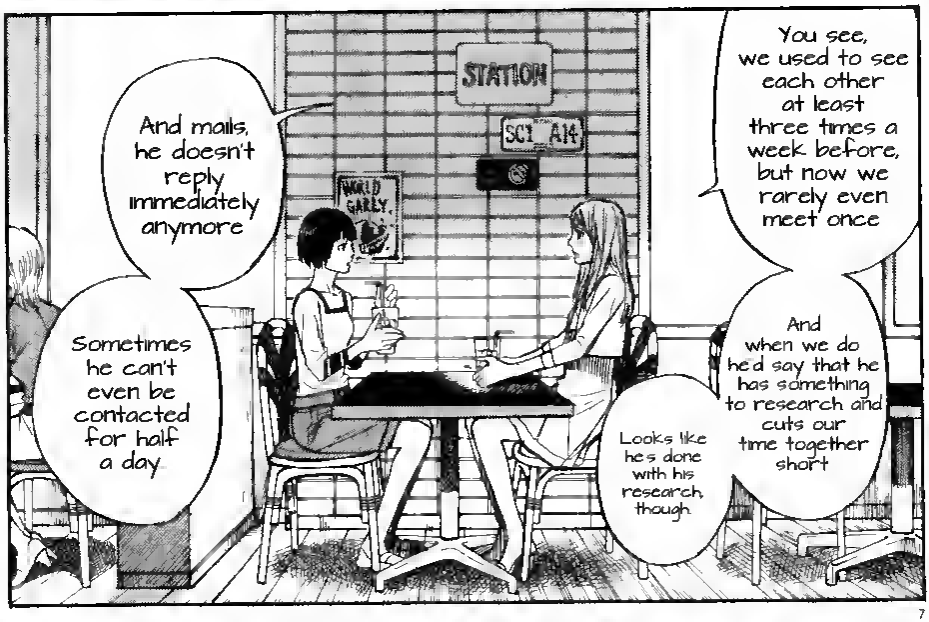
Kunikida-san, you're working overtime today, right?
Yes.
Did I tell you?

.....

Good luck.
See you later.

Izumi-san, I'm here!
Sorry for asking you out on a short notice
I'm glad you came!
No, it hasn't been long
Sorry for making you wait

It's okay
I didn't have anything to do

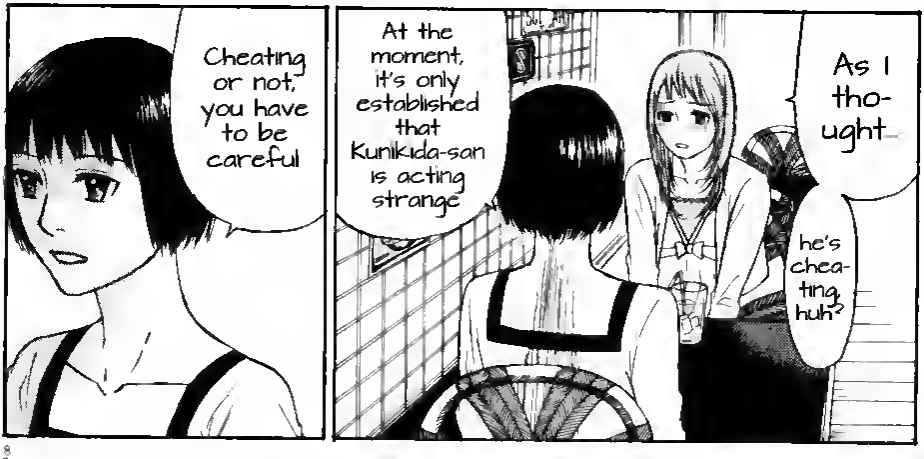


STATION
SCI_AI4
You see, we used to see each other at least three times a week before, but now we rarely even meet once
And when we do he'd say that he has something to research and cuts our time together short
Looks like he's done with his research, though
And mails, he doesn't reply immediately anymore
Sometimes he can't even be contacted for half a day

These days Youichi is being weird!
He's not himself!
Not himself
Yuka-san

See?!
You know, Kunikida-san seemed absent-minded in work today

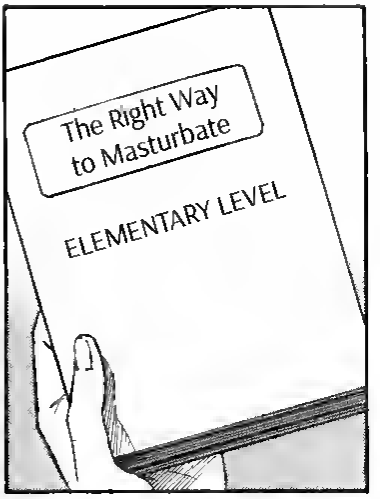
Do you really not know the reason?

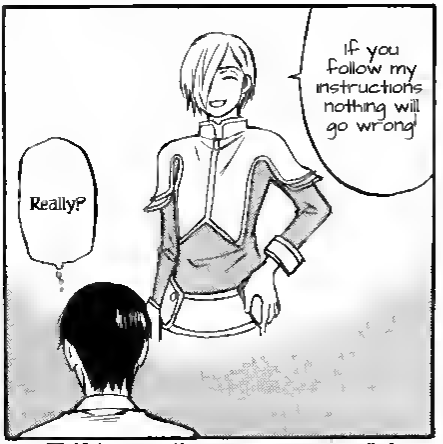


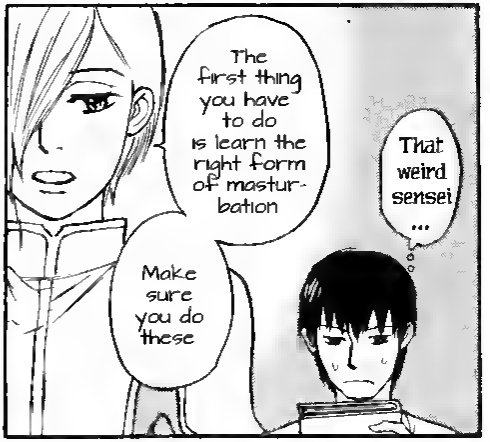
Cheating or not, you have to be careful
At the moment, it's only established that Kunikida-san is acting strange
As I tho-ught...
he's chea-ting, huh?

.....

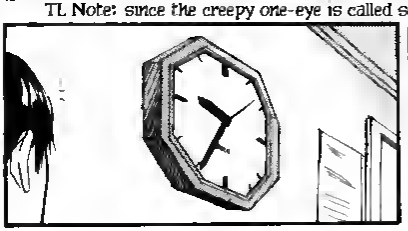
- Do it somewhere nobody will disturb you.
- Do it everyday on the same predetermined time.
- Do it without thinking about anything lewd. (like last time)

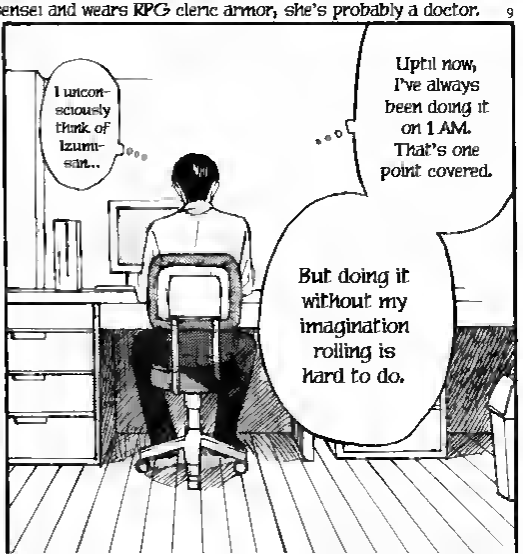




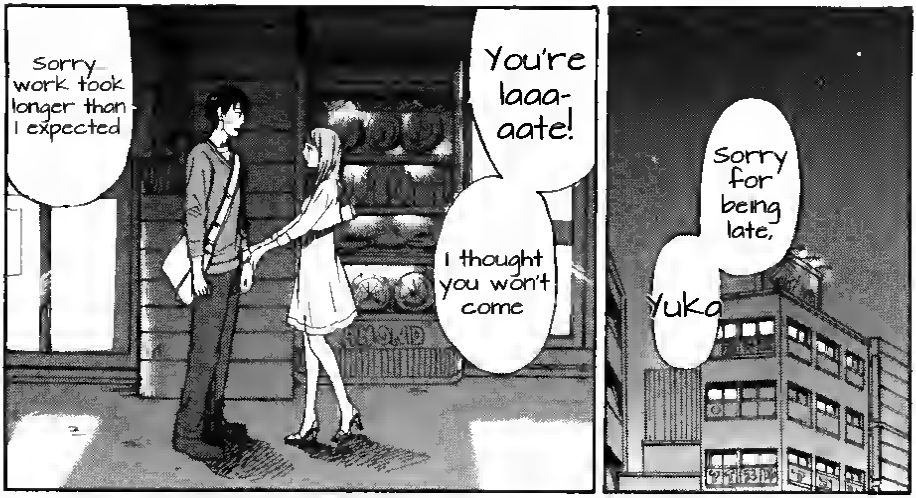


TL Note: since the creepy one-eye is called sensei and wears RPG cleric armor, she's probably a doctor.

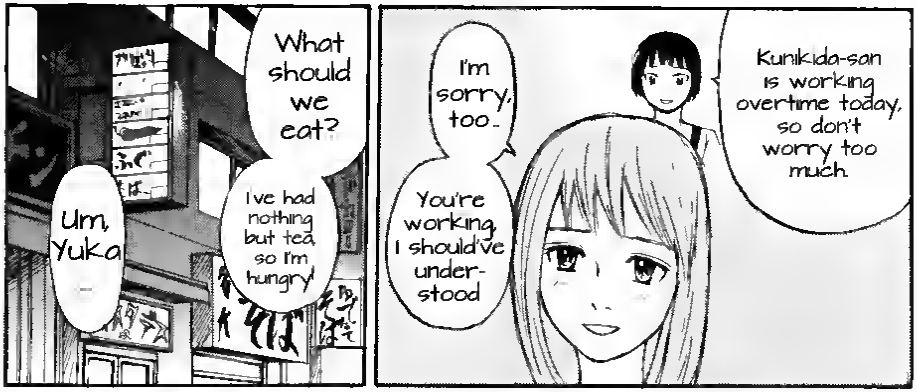




I unconsciously think of Izumi-san...
Until now, I've always been doing it on 1 AM. That's one point covered.
But doing it without my imagination rolling is hard to do.



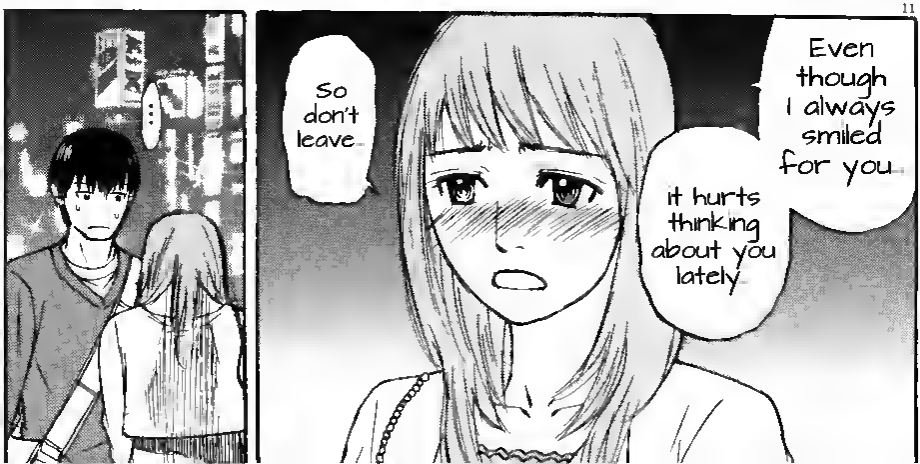
Sorry, work took longer than I expected
You're laaa-aate!
I thought you won't come
Sorry for being late,
Yuka



What should we eat?
Um, Yuka
I've had nothing but tea, so I'm hungry!
Kunikida-san is working overtime today, so don't worry too much.
I'm sorry, too.
You're working, I should've understood

Yuka...
You can't!
You're not leaving my side tonight!
NO!
I have my research again.
So before the last train--

You don't understand my feelings
Meanie
We used to be together until morning
You fulfilled my wishes.
Why do you say that you're going to leave me and go home now?!
That's not the Youichi that I know!

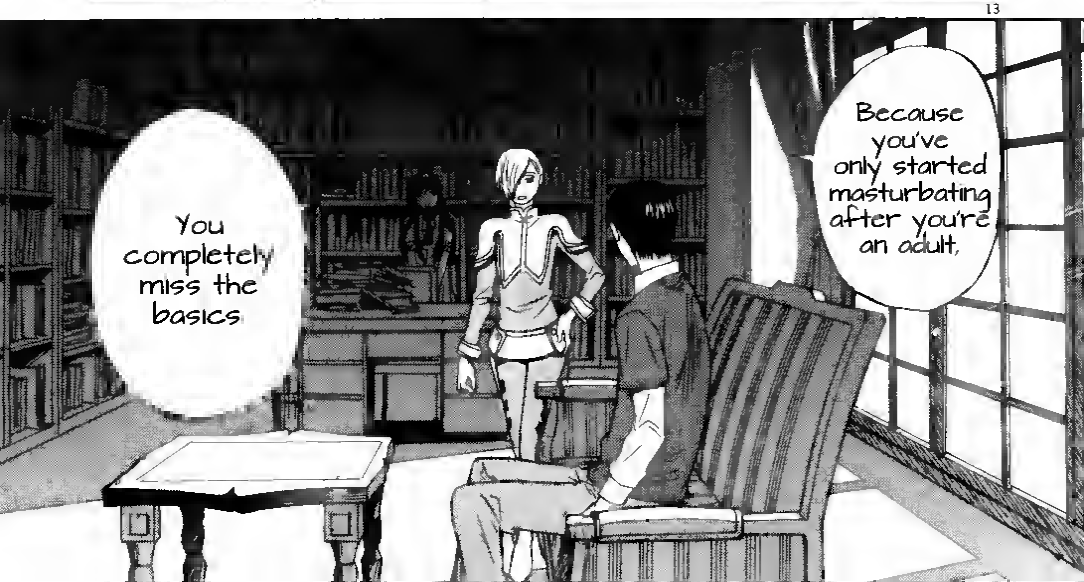


Even though I always smiled for you
it hurts thinking about you lately
So don't leave

Yes
Pro-mise?
No leaving when I'm sleeping okay?
Okay
I won't leave today
In my case it hurts thinking about mastur-bation lately
Ha ha
That's because you were making me feel lonely lately!
I'm going to cling to you all night!

Aaaahn

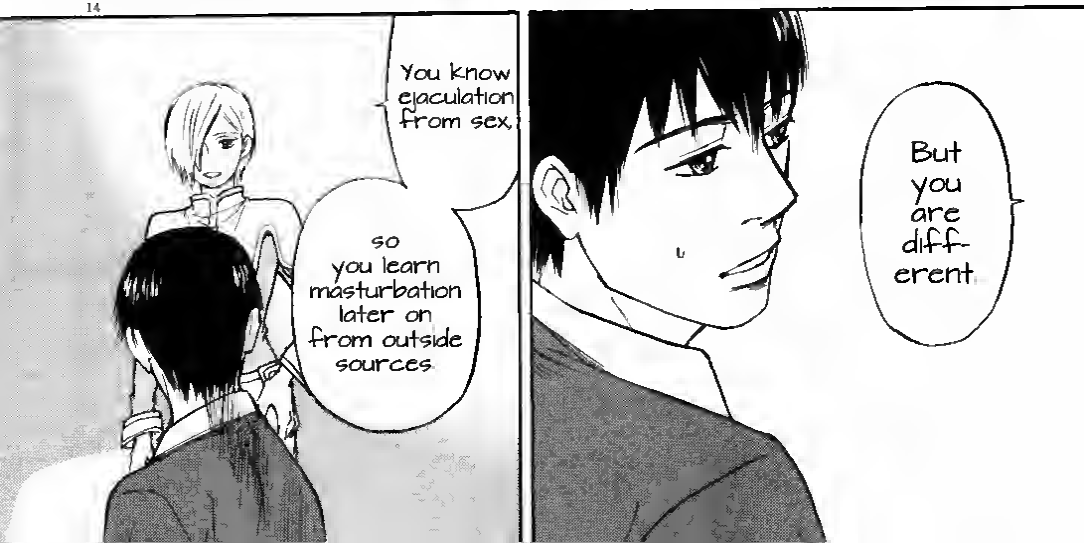
There's a fatal error in your mastur-bation.



You completely miss the basics.
Because you've only started masturbating after you're an adult.

For a lot of people, on their first masturbation, they just do on impulse whatever makes them feel good
And they keep doing it until they ejaculate and orgasm
Because it feels good, they do it the same way again, and the body gradually starts to memorize the form of masturbation

There are also cases where people know it because as kids they see perverted stuff and feels itchy seeing it
and then try doing it while thinking of perverse things
Even without being told by anyone,
everyone come to know mastur-bation with their body



But you are diff-erent
You know ejaculation from sex,
so you learn masturbation later on from outside sources

The reason you're feeling weird lately is because your body is warning you about your wrong form.
That is why you have to try doing it without the aid of your imagination,
to learn the right form,
understand the workings of human physiology, and experience the mastur-bation that your body remembers
A baby starts by crawling and then totteringly walk, and after that they can take steps steadily
You, Kunikida-kun, are like a newborn trying to sprint
You'll get hurt like that
But don't worry
If you do as I told you, your mastur-bation form will come back to you.
Let's do our best together.

Yes.

(in case you didn't notice, every chapter has the same amount of page: 18 pages)

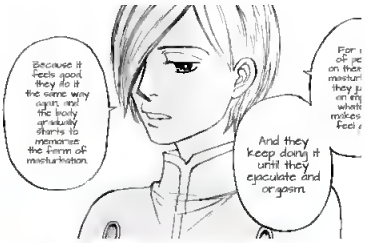
Sorry.
I guess whoever scanned the raws didn't notice that two pages were stuck together. So we're left with two missing pages, this chapter's last page and the next chapter's first (title) page. Errors happen. No big deal.

If you ask "So, did Youichi ejaculate or not?"
Only those who actually bought knows... And I'm not one of them.

In this page,
Instead of "1 to 3 scale",
in the actual Japanese script,
she actually asks in shirt size.

Japanese:	大	中	小
English:	Large	Medium	Small
American:	Small	Small	Small

Don't take what this skank > says seriously.
Because I probably got them wrong.



Because it feels good they do it the same way again, and the body gradually starts to memorize the form of masturbation.
And they keep doing it until they ejaculate and orgasm.

Now, for the actual unimportant rant.

I saw the trailer for Prison School's live action adaptation.
When I saw this scene, I instantly thought "Wow! Fukushi Sota!"
Turns out he isn't. Goddamit, all you ikemen look alike.

I think of this ^ while I'm typing.
I spent a lot of time writing all this, although I know it'll only be read by, like, 4 people.
Oh well, thanks for reading, you!
